

Work Teams

Policy Work Team

focuses on analyzing child abuse and neglect on a systems level and identifying policy changes that help all Kentuckians recognize, respond to, and prevent child abuse and neglect.

Health Professionals Work Team

focuses on identifying actions that those in the healthcare field can take to recognize, respond to, and prevent child abuse and neglect.

Youth-Serving Organizations Work Team

focuses on identifying needed education and programming around child abuse recognition and prevention for youth serving organizations.

Child Care Providers Work Team

focuses on identifying strategies that parents and caregivers can participate in to identify, respond to, and prevent abuse and neglect.

Youth Work Team

focuses on engaging youth in advocating for changes in their community and in the Commonwealth that will help to end child abuse and neglect.

Educators Work Team

focuses on raising awareness of child abuse and neglect among educators, school personnel, and students.

The Face It® Movement directly addresses the unacceptable incidences of child abuse and neglect in Kentucky with the promotion of best practices in child abuse prevention and intervention, engaging the community, and advocating for effective policies to improve the child welfare system.
